Write a document (.txt, .doc, or .pdf only) describing your progress on your project. Indicate whether or not you your milestone 1 goals were met, and whether or not you think that you are on track to accomplish your project goals by the end of the term. Discuss any particular challenges that you’ve overcome or that are blocking your progress.

Include a link to your project’s version-control page in your document.

Each team member must submit a document to Canvas for credit.

Upload your document to Canvas (see Assignments section for submission link).
