Project Submission

• Make sure that all project deliverables are available on your assembla pages
  – Include source code as a downloadable package
  – Include executable and test cases
  – Include presentation slides
• Provide explicit instructions on how to find each deliverable (use your Home page)
• Provide explicit instructions how to install and run your software
• Don’t forget Peer Evaluations!

Next Week

• Project II kickoff
• Look at Project page for directions, ideas
  – Come to class with 2 – 3 ideas
  – OK to discuss with me before submitting proposal
• Midterm next week
  – Review on line
  – Multiple choice and short answer based on lectures
