Assignment 2
due Wednesday, October 11

from the 2nd ed Sipser text:

2. exercise 1.16 (1st edition: 1.12, 3rd edition: 1.16)
3. Recall the NFA given in class for the language over \{0,1\} of “all strings that contain 0101”. Convert this NFA to a DFA.

comments:
Can email you the diagram for problem 3 if you can’t find it.
