HOMEWORK FOR OCT 8

Put together some documents that you would want to bring with you to a competition or interview to help you code efficiently. This could be sample code, math formulas, etc.

- this is to help when you don’t have internet access or access to electronic devices
- aim for at least 4 items/pages, hopefully you will add to it through the term
- you can work with a team-mate (but then put together more)

Also, code one of the div 2 problems (posted on class website).
