Assignment 2

due Friday, February 1, 2021

For the last three (greedy) problems, you are expected to

- Describe the greedy choice
- Justify this choice (this is the most important point, thinking exchange argument here)
- Describe your algorithm (code or maybe just a sentence or two)
- Give the time bound of the algorithm

1. exercise 12, p 112
2. exercise 5, p 190
3. exercise 7, pp 191-192
4. exercise 15, p 196
